

CASE STUDY | ALLAN GRAY HEAD OFFICE SOUTH AFRICA

PROJECT: Allan Gray Head Office SA
CATEGORY: Corporate
DURATION: 6 months
SIZE: 400 people

Allan Gray's new building at Silo 1 in Cape Town's Waterfront boasts an impressive 6 star "Green Building" rating. Project Interior Architects, Collaboration, commissioned Inova to supply furniture for the public spaces, dining areas, open plan meeting pods, auditorium, meeting rooms, canteens and chill zones.

Each of the 6 floor levels displays an impressive colour-coded array of carefully chosen furniture pieces, mainly from Italian designer furniture manufacturer Arper, which perfectly complement the open and volumous spaces.

Inova and Arper are extremely proud to have been involved in the "great indoors" of this world class building.
