

CASE STUDY | MULTICHOICE AFRICA HEAD OFFICE

PROJECT: Multichoice Africa HQ
CATEGORY: Corporate
DURATION: 12 Weeks
SIZE: TBC

In 2014 we were awarded the contract to source, supply and install all the high end designer contract furniture requirements for the public areas, meeting and conference rooms, dining rooms, canteen and pause areas, chill zones and waiting areas for the iconic new buildings, designed by GLH Architects, for the Multichoice DSTV Africa head office in Johannesburg, South Africa.

Our interpretation and implementation of the brief by leading South Africa design consultancy DSGN, contributed greatly to the impressive interior architecture and interior design language on this world class project.

Along with our international furniture brand partners such as Arper, Tacchini, Magis and Pedrali we are proud to have been part of this architectural showpiece.
